

4-Weeks Timeline

Week	Milestones/Goals	Tasks/Activities	Expected Outcomes
Week 1	Project Setup & Research	<ul style="list-style-type: none">- Research Islamic etiquette and manners.- Identify key topics (e.g., greetings, respect, cleanliness).- Set up development environment.	<ul style="list-style-type: none">- Defined list of topics.- Project setup completed.- Familiarization with C++ coding and project structure.
Week 2	Menu and Topic Display	<ul style="list-style-type: none">- Develop the menu system to navigate between learning options.- Implement the 'Learn Etiquette' feature.- Design topic structure for display (array).	<ul style="list-style-type: none">- Menu system works.- User can view and learn topics on Islamic etiquette.- Basic functionality of learning topics in place.
Week 3	Quiz Development & Scoring System	<ul style="list-style-type: none">- Develop the 'Take Quiz' feature.- Implement question/answer functionality.- Add scoring system and store results.- Save progress to a file.	<ul style="list-style-type: none">- Fully functional quiz.- Scoring system implemented.- Progress is saved correctly.- Users can track their learning progress.
Week 4	Progress Tracking & Final Testing	<ul style="list-style-type: none">- Implement the 'View Progress' option.- Test all features: menu, learn etiquette, quiz, and progress tracking.- Final code cleanup and documentation.	<ul style="list-style-type: none">- All features are working seamlessly.- Code is clean and well-commented.- The project is complete, tested, and ready for presentation.

This plan breaks down the project into manageable steps over four weeks, making it easier to track progress and ensure all components are developed successfully.
